## OPENING CEREMONY OF THE SPORTS EVENT: -

The inauguration of the sports event was done by the honorable principal Dr. N.R. Jagtap sir, by doing the pooja of the racing track. Then all the faculties and sir has given wishes to the players for the competition and the games were started.

Here our principal sir announced that 'BEGINE THE GAMES'.....

## IMPORTANCE OF SPORTS FOR STUDENTS:-

Now a days, parents as well as teachers seem to give less importance to sports. This is because they want their children to become either engineers or doctors. They tend to forget that all study and no play would affect the shaping of the students personality. It is well known that only a sound body can boast of a sound mind. To fulfill this, sports should be included in any educational curriculum.

It is a fact that physical training and exercises help to inculcate discipline. Every game or sport has its own set of rules. One has to follow them scrupulously. Further, sports and games give the youngsters an opportunity to lead as well as be lead. Thus, sports help to bring out and nurture the qualities of leadership.

Vivekananda said that we can reach heaven by playing football than by reading Gita. Hereby he had stressed the need for physical development.

That's the reason why our Institute plans for a sports week every year so that the students will get an opportunity to show their sportsmanship and talent. Also they will get relax from their very busy time with the professional education.....

#### Purpose of competition:-

Competitions play a role in motivating students to perform and excel and offer a lot more reward than just the winning prize. Competitions offer a chance for participants to gain substantial experience, showcase skills, analyze and evaluate outcomes and uncover personal aptitude. Competitions also encourage students to adopt innovative techniques and develop their ideas and skills.

#### Substantial Experience Gain

Very few opportunities in the average student life provide such exposure and realistic outlook towards the competitive nature of real life in such a short span of time as competitions provide. Students recurrently go through a series of brainstorming sessions, rapid problem solving sequences and experience a totally diverse form of learning, which they usually don't practice in their schools or colleges.

#### Brighten up your Resume

Achievements through competitions can leave great imprints on your resume. They provide proof of your outstanding skills and distinguish you from your classmates. They will put you at an advantage when applying for higher studies or competing in the job market. Hence, they can offer enduring recompenses for students.

#### Make new friends

Competitions offer you a chance to meet new people and make friends from other disciplines and geographic locations. These intellectuals can help you learn more about the diverse fields they belong to and countries they live.

#### Showcase your Skills

Competitions provide a great platform to display the knowledge and skills you have amassed over the years. The experienced panel of jury can provide a critical analysis and feedback of your performance. In this way, competitions can prove to be a great source of self-evaluation for students and help nurture their experience and skills further.
